

Best-in-Class Technology Solutions

Let GSA's Best-in-Class (BIC) information technology (IT) contracts help you meet mission goals

Our Best-in-Class (BIC) designated IT solutions help agencies meet the President's Management Agenda (PMA) and Cross-Agency Priority Goals related to Spend Under Management (SUM) and the use of Best-in-Class (BIC).

Spend Under Management (SUM)

SUM is the percentage of an agency's spend that is actively managed according to category management principles.

Increasing SUM will:

- eliminate redundancies,
- increase efficiency, and
- deliver more value and savings.

Best-in-Class Technology Acquisition Solutions

Our IT Best-in-Class solutions are vetted, well-managed, and recommended for use by Office of Management and Budget (OMB). Using them will:

- Maximize the government's shared purchasing power, allowing agencies to leverage volume discounts;
- Help agencies operate more efficiently by reducing administrative costs and contract duplication and
- Expand collection and sharing of government-wide buying data, leading to better-informed business decisions.

GSA's Best-in-Class IT Solutions

Our BIC offerings are:

- 8(a) STARS II – www.gsa.gov/s2
- Alliant 2 – www.gsa.gov/alliant2
- COMSATCOM – www.gsa.gov/satellite
- EIS – www.gsa.gov/eis
- FSSI Wireless SIN – www.gsa.gov/wirelessfssi
- GSS Desktop/Laptop – www.gsa.gov/gssdesktoplaptop
- Networkx – www.gsa.gov/networkx
- VETS 2 – www.gsa.gov/vets2

These contracts are multiple-award, indefinite-delivery, indefinite-quantity (IDIQ) Governmentwide Acquisition Contracts (GWAC) and Blanket Purchase Agreements (BPA). All contract awardees have the required facility clearances and can provide best-value IT solutions to federal agencies, and helps meet socio-economic goals.

8(a) STARS II: GSA's third generation 8(a) set-aside GWAC which provides federal agencies with cutting-edge IT services-based solutions from award winning 8(a) small businesses.

Alliant 2 GWAC: This next generation GWAC builds off of the success of Alliant to provide a contract vehicle that serves as a total solution to agencies' requirements.

COMSATCOM: Commercial satellite communications services help federal, state, local, and tribal governments maintain essential and secure communications where no wire line or wireless infrastructure exists.

Enterprise Infrastructure Solutions (EIS): EIS is a comprehensive solution for the government's IT modernization and telecommunications needs.

Hardware and Software Special Item Numbers (SINs): Government-wide Strategic Solution (GSS) and online purchasing tools like GSA Advantage offers federal agencies options to purchase standard desktop and laptop configurations through IT Schedule 70.

Networkx: Allows federal agencies to build seamless and secure operating environments through customized telecommunications services.

VETS 2 GWAC: The only GWAC set-aside exclusively for Service-Disabled, Veteran-Owned Small Businesses (SDVOSB). It's designed to meet diverse agency IT services requirements, including new and emerging technologies.

Wireless SIN: (FSSI) — Agencies can use mobile service plans and devices more effectively and efficiently through unified acquisition, improved information management, and cross-agency collaboration. FSSI Wireless is part of the Federal Strategic Sourcing Initiative ([FSSI](#)).

Our BIC offerings are growing. Visit www.gsa.gov/acquisition/category-management/bestinclass for the most current list of solutions.
